

Career Development

Employee Name
Software Engineer
Joined: January 2023

 **Current Credit Points: 86**

Skills: JavaScript, React, Node.js
Role: Software Developer
Certifications: 04

Ongoing Courses

JavaScript
Learn advanced concepts and techniques for JavaScript development.
In Progress
[Continue Course](#)

React.js
Learn React.js fundamentals, including components and state management.
In Progress
[Continue Course](#)

Node.js Basics
Understand the basics of Node.js and how to create backend applications.
In Progress
[Continue Course](#)

Database
Learn the principles of database design and how to structure data effectively.
In Progress
[Continue Course](#)

Completed Courses

Introduction to Python
Basics of Python programming language, including syntax and
[View Certificate](#)

Web Development Fundamentals
Understanding HTML, CSS, and JavaScript to build basic
[View Certificate](#)

Data Structures & Algorithms
Master key algorithms and data structures for programming
[View Certificate](#)

SQL for Data Science
Learn SQL to query databases and perform data analysis and for
[View Certificate](#)

New Courses Available

Web Development Basics
Learn the fundamentals of HTML, CSS, and JavaScript to build modern websites.
 **10 Credit Points**
[Enroll Now](#)

Database Management
Understand how to manage, query, and store data using SQL and NoSQL databases.
 **15 Credit Points**
[Enroll Now](#)

Cloud Computing
Learn cloud computing concepts and how to work with cloud services.
Free for Limited Time
[Enroll Now](#)

DevOps for Beginners
Introductory course on DevOps practices and continuous integration pipelines.
 **20 Credit Points**
[Enroll Now](#)

The **Career Development Page** enables employees to monitor their progress in ongoing courses. It also provides the option to purchase new courses using coins earned through the completion of tasks and previous courses. This platform supports continuous learning and professional growth of the employees.
